

VENT HOOD PART NUMBER CHANGES

APRIL 5, 2024

All new vent hoods will have a "-2" to signify they are NEW. This "-2" does not mean 2 motors, nor does it mean 2k CFM, it simply means "second version." Because of this, we've added "-2" to the 36" Vent Hood part numbers.

To make it simpler, all associated vent hood part numbers (spacers, templates, duct covers), will be the vent hood part number + spacer/template/duct cover, for example: **TF-VH36-2-SP8**.

TrueFlame Vent Hood Part #s

VENT HOODS

TF-VH36-2
TF-VH42-2
TF-VH48-2
TF-VH60-2

1/2" MOUNTING BRACKET TEMPLATE

TF-VH36-2-SPT
TF-VH42-2-SPT
TF-VH48-2-SPT
TF-VH60-2-SPT

4" & 8" SPACER BRACKETS

TF-VH36-2-SP4 / TF-VH36-2-SP8
